Mechanical Engineer

Description

CED Technologies Inc., Shelton, Connecticut, is currently looking for a licensed professional Mechanical Engineer who performs investigations from vehicle accident reconstruction, water loss cause of origin, workplace safety, product liability and beyond in a friendly cultured environment. This is a salaried position; the annual salary is \$85,000 – \$125,000 depending on the level of experience. The individual who fills the position is eligible for a quarterly Engineering Incentive plan and an annual discretionary bonus based on the company and the individual's performance.

The Mechanical Engineer will provide comprehensive disciplined engineering experience and perform in-depth forensic investigations such as vehicle accidents. The ideal candidate must be willing to occasionally travel on a day or overnight basis to investigate accidents. The engineer applies their engineering principles and helps their clients successfully resolve a loss or any litigation requirements. This position is well suited for an individual who is motivated and a self-starter who likes working independently and not at a desk and on occasion also enjoys working outdoors.

Required Qualifications

- B.S. and or M.S. in Mechanical Engineering.
- 3 to 5 years of Mechanical Engineering experience.
- Professional Engineering (P.E) license.
- Advanced educational degrees such as a master's or Ph.D. are a plus.
- You must be willing to travel on a day or overnight basis to conduct investigations.
- Excellent verbal and written communication skills.
- Demonstrates the ability to efficiently complete detailed work.
- Exhibits effective time management skills with the ability to meet deadlines and deliver timely work based on client needs.
- Collaborative and friendly with the ability to work independently.
- Vehicular accident reconstruction (ACTAR certification is a plus)
- Fire investigation experience and/or certification is a plus.
- Incident investigation is a plus.
- Expert witness experience is a big plus.

Company Overview
